

EcoForce Global Opportunity Presentation v2.1

powerpoint slides

◆ ADVOCATE NOTES

NOTE: Wording shaded in grey are the words on the PowerPoint Presentation

SLIDE 1: Ordinary people with an extraordinary passion to save our planet

Start with an empowerment promise.

Welcome to the EcoForce Global Opportunity Presentation! We are all about ordinary people with an extraordinary passion to save our planet. By the end of this Presentation, we trust you will know a lot more about the humble tree, however more importantly how they provide a practical way forward to capture carbon and help heal the planet. There will also be an invitation for you to be part of the solution. But first, we have a couple of questions for you to get started ...

SLIDE 2: Have you ever thought about the future of our planet?

You do not have to look too deep into the health of our planet to see evidence that our earth needs our help

From increased severe weather patterns, rising sea levels, excessive pollution, and global warming ... the future of our planet is disheartening

According to a UN Report ONE THIRD of the land on our planet is severely degraded and fertile soil is being lost at an alarming rate of 24 billion tonnes a year!

SLIDE 3: Have you ever wondered if there was something YOU could do to help?

With a global challenge, often as individuals we can feel helpless to be part of the solution.

The reality is, as humans, we are the ONLY INHABITANTS on earth that can INITIATE POSITIVE CHANGE to heal our planet and learn from past mistakes

If we fail to take PROACTIVE STEPS NOW to care for this planet earth, then we have no other option in the known universe to continue to exist as we have done, for future generations

Time is running out, *so what can WE do?*

SLIDE 4: Video – David Attenborough

In this short video, Sir David Attenborough shares the gravity of the challenge that faces us today ...

(After video) On behalf of David, we are going to show you how YOU can help save our planet

SLIDE 5: Let there be hope

We often hear and see much about the impact of climate change, however few of us know HOW we can really make a difference - until now

The GOOD NEWS is there is a Company with a message of hope that IS making a difference. Importantly, everyone and anyone can be involved in the SOLUTION – because EVERYBODY is affected

Introducing EcoForce Global - saving the planet one tree at a time.

Let me take a minute to introduce you to the visionary leaders behind EcoForce Global; Charles and Tracy Alder.

SLIDE 6: EcoForce Global Founders: Charles and Tracy Alder

In 2015 after seeing a need, they decided to take action

They created a charity; *Rural Aid*. Remarkably, their *Buy-A-Bale Fundraising Program* raised over \$100 million for drought affected Farmers and provided support to rural communities in Australia

It was during this time they became aware of the OPPORTUNITY for Farmers to play a major role in capturing CO2 by changing farming practices and repairing OUR PLANET

SLIDE 7: EcoForce Global Mission

"Empowering people through knowledge and action to plant enough trees to sequester (capture) 30% of the world's annual carbon output through intelligent and sustainable planting of trees to reduce the effects of global warming and create a living legacy for all"

We are not wanting to plant just a few trees. Our VISION is to plant billions of trees, with our first goal of 1 billion trees by 2030

SLIDE 8: Why trees are important to our planet

Trees;

Regulate the water cycle

Provide jobs

Support wildlife habitats

Improve soil quality

Prevent erosion

Provide shade

Supply oxygen for us all to breathe

Capture and store carbon

It is a known fact, that trees with their natural ability to sequester carbon from our atmosphere, can slow and even reverse global warming, so logically we need more of them ... *urgently*

SLIDE 9: EcoForce Global Tree Planting Program

Over 50% of the world's land is owned by Farmers

Farmers provide the *GREATEST OPPORTUNITY* to sequester (capture) carbon in their soils. Therefore, we do not need to involve governments to request and release land or purchase land to plant trees.

Through the EcoForce Global Tree Planting Program, we work with Farmers, local nurseries and non-profit community groups to plant, nurture, and support trees to maturity

In doing so, we are repairing hundreds of millions of acres of low productive land to INCREASE world food production and IMPROVE farming viability.

SLIDE 10: EcoForce Global Tree Planting sites

We have Farmers connecting with us from all over the world to participate in our Tree Planting Program. Our planting sites currently include; Australia, Canada, Colombia, India, Jamaica, Kenya, Nepal, New Zealand, Nigeria, Portugal, South Africa, United States of America and Zambia.

The great news is, YOU too can be part of the SOLUTION by helping us make these Projects happen. We will show you shortly how you can participate, but first, let's show you what we are achieving with our Tree Planting Program ...

SLIDE 11: Planting trees is the foundational step in land repair

By working with Farmers to transition from industrial farming methods to Regenerative Agriculture they can help store billions of tonnes of carbon in the soil and help restore balance

Planting trees in remote areas is not as simple as purchasing them from a nearby nursery and planting them in your backyard where water and support is readily on hand. Planting trees in many locations is hard, but at EcoForce Global, we make it easy.

Just imagine an opportunity where YOU can be rewarded by planting trees that helps Farmers restore the soil so they can grow healthier produce and grow chemical-free food for you and your family. If you are wondering how planting trees with EcoForce Global can make a difference, the following video shows you how.

SLIDE 12: Video: Why planting Trees with EcoForce Global makes all the difference

SLIDE 13: EcoForce Tree Clubs ... a gift for the planet

The EcoForce Tree Club Options allow anyone to get involved ... *anywhere*

The journey of each tree to ensure it reaches maturity includes multiple steps and processes; There is the SOURCING of a selection of diverse trees from local nurseries that are indigenous to the area, and consultation with the participating Farmer.

We then pay non-profit Community Groups to PLANT the trees when the timing is ideal

We also assist the Farmer to REPORT on AND NURTURE each tree for 2 years to ensure the longevity and health of every tree to reach maturity

In addition, we SUPPORT and provide EDUCATION the Farmer to transition from industrial farming methods to sustainable REGENERATIVE AGRICULTURE methods

All this plus more is included in the investment of every tree. Being part of the solution is as simple as choosing from the following 3 Options:

SLIDE 14: OPTION 1: Buy a Tree – become an EcoForce Customer

Simply select *your* Trees from the Tree Club Options listed on the EcoForce website

You can either purchase your trees in full, or choose the payment plan that works for you

YOU can get started for as little as just \$7.70 AUD (\$5.50 USD) per month to help heal our planet

Once your tree/s are planted YOU will receive the GPS coordinates PLUS a 6 monthly update report for the next 2 years

Every tree purchase makes a difference ... but it doesn't stop there ...

Imagine being part of a team that is helping to heal our planet. If you had to, how could you increase your weekly household income right now? Maybe spend money and years on higher education, then hope you'll be employed amongst all other graduates? Maybe get a promotion? Land that dream job? Win the lottery? There has to be a better way.

SLIDE 15: OPTION 2: Join Our Team – become an EcoForce Global Advocate

Could YOU use an extra \$300 per month?

Simply by joining the 5 Tree Club (or higher) and finding just 5 others to do the same YOU will receive \$120 - \$300 + per month as a back-up income

... it's a win for the planet and for your wallet

Have you ever thought, I wish life could just be simpler? Maybe have more money, more time, even a more fulfilling and satisfying life? Maybe to be in a position where you can multiply your choices in life and have the hours in the day to do the things that really matter to you?

SLIDE 16: OPTION 3: EcoForce Ecopreneur Would YOU like a Career Income?

Could YOU use an extra \$2,000 to \$5,000 + per month?

As an active Advocate YOU can create FINANCIAL FREEDOM while contributing to heal our planet. Your EcoForce INCOME has;

- ✓ unlimited earning potential
- ✓ is leveraged
- ✓ continues to grow into retirement
- ✓ AND an income that YOU can gift to someone else

SLIDE 17: Could YOU use a \$100K Electric Vehicle? AND a Million-Dollar Home?

At EcoForce Global we believe in rewarding our best performing Advocates with exclusive additional Bonus Rewards based upon effort. Introducing EcoGOLD ... a once in a lifetime opportunity. EcoForce Global Advocates who are taking massive action to help heal our planet can earn up to \$1.25 million in rewards including a \$100k EV (electric vehicle) and our top Bonus Reward; a beautiful home valued at \$1 million dollars. These Bonus Rewards are available to all Advocates in addition to the financial rewards available through the Advocate Rewards Program. Find out how you can gain access to these massive Bonus Rewards as some conditions apply.

SLIDE 18: EcoForce Global Tree Warrior Road Trips

Hop on board the EcoForce Tree Warrior Express Bus and visit your trees *in person*. Get a photo with YOUR TREE and talk to the Farmers *directly* to learn the impact of YOUR INVESTMENT into the future of our planet ... *it really is ALL about making a DIFFERENCE*

SLIDE 19: EcoForce Global Exclusive Immersible Adventures

EcoForce Advocates who are leading the way will be rewarded with all-expense-paid adventures to some of the world's most endangered locations before they disappear forever. Witness firsthand Initiatives that EcoForce supports to hopefully restore what has been lost before it is too late ... these include;

- ✓ The Amazon Rainforest
- ✓ Canadian Ice Shelves and Glaciers
- ✓ The Great Green Wall Project in Africa
- ✓ Great Barrier Reef in Australia + many others

SLIDE 20: A common-sense business to make uncommon dollars

EcoForce provides a fertile garden bed to grow YOUR DREAMS into REALITY

Opportunities include: Corporates with ESG's (Environmental, Social and Governance), Schools and Charities for fundraising, EcoPartners – for businesses to include their customers to be carbon neutral, and you can even host your own Tree Party to share the EcoForce Opportunity in a fun, relaxed environment anywhere that works for you.

(ESG – is an evaluation of a firm's collective conscientiousness for social and environmental factors)

The extra income allows YOU to take control of Your Own economic security. We are all about SUSTAINABILITY ... for our earth and Your Own personal sustainability

Simply by joining the EcoForce Mission YOU can grow YOUR INCOME to invest in dreams that are important to YOU

SLIDE 21: Your support

EcoForce has EVERYTHING in place to support YOU to take back YOUR LIFE and achieve the success YOU desire as you help restore balance to our planet

In addition, we have a complete *step-by-step training course*; EcoMastery Success Program with everything YOU need to know to run a successful organisation, including community and connection, practical training, and motivational events

Following is an inspiring video showing many more great projects that are supporting our planet for a better future ... scheme

SLIDE 22: Video: Kiss the Ground promo

SLIDE 23: The future of our earth depends on all of us

Whilst we inherit the planet from our ancestors, we borrow its future from our children

SLIDE 24: Your legacy

As an EcoForce Global Advocate YOU support our earth for future generations

We get ONE LIFETIME to make a DIFFERENCE

SLIDE 25: What our participating Farmers are saying

- John and Narelle McDonald, New South Wales, Australia

"... the Tree Planting Project is an opportunity to regenerate some of our land effected by drought, flood, and land erosion.

... The trees will also stabilise soil, minimising erosion into an adjacent natural waterway, improve the pasture, and help to restore the environment for wildlife."

SLIDE 26: What our participating Farmers are saying

- Phil and Andrea Chavanne, Texas, United States of America

"This project is important to us because it would help us fulfill so many of our goals for a healthy land ethic on this ranch. Firstly, it would greatly multiply the biodiversity of the land, radically transforming the future of the plant communities on the property.

... This project would also help reduce erosion of our precious soils as well as significantly reduce the carbon footprint of the property ..."

SLIDE 27: What our participating Farmers are saying

- Matthew and Kristy Cass, Queensland, Australia

"... trees are key to sequestering carbon, and are a major part of the water cycle, and that is what the land is missing. It is utterly important to me to get trees in the ground, and to care for them to get this process going and provide habitat for native fauna ..."

SLIDE 28: What our participating Advocates are saying

- Alawiyya Baba Musa, Nigeria, Africa

"The world is already experiencing changes in average temperature, shifts in the seasons, and an increasing frequency of extreme weather events, and other climate change impacts. We can mitigate climate change by reducing our emissions or by ... planting trees.

... I want to make an impact on my society to create a climate-resilient future for all of us."

SLIDE 29: What our participating Advocates are saying

- Elizabeth (Lizzy) Er, Queensland, Australia

"I've been concerned for a long time about the climate, and I see this as one way I can be involved in repairing the planet."

SLIDE 30: What our participating Advocates are saying

- Karen Jansen, Victoria, Australia

"... My mission now is to plant a forest of trees to capture and store carbon, nourish, and regenerate the soil and create homes and shelter for wildlife.

At the same time, I have been determined to find an opportunity that will allow me to grow, learn, collaborate, and ultimately allow my family and I to truly own our lives.

As an EcoForce Global Advocate I can do all of this ... but I can't do it alone!"

Following is our last video that captures the Opportunity on offer for you today

SLIDE 31: Video: EcoForce Lifestyle

SLIDE 32: Your personal invitation

Based on what You have seen so far, which Option best suits YOU?

Option 1: EcoForce Customer – Simply buy a Tree from our Tree Club Options

Option 2: EcoForce Advocate – Join the Team and build a back-up income

Option 3: EcoForce Ecopreneur – Create a career income

By simply registering as an Advocate for free with the growing EcoForce Global Community AND simply investing in trees, You genuinely are making a POSITIVE DIFFERENCE to help heal our planet

Your MISSION should YOU choose to accept, is simply INVITE OTHERS to do the same and join us all on this exhilarating, yet vital mission. There are just 4 steps to make this happen

Register ► Buy ► Share ... repeat

SLIDE 33: One person can change the world, imagine what a tribe of us could do

If one person can change the world, imagine what a tribe of us could do

Your Next Step

Step 1: Contact the person who invited YOU to this Presentation

Step 2: Discuss which Option best suits YOU

Step 3: Get started TODAY ... our planet needs YOUR HELP

Step 4: Join our next Presentation - details: ecoforceglobal.com/ecoforce-events

We salute you for coming today and your interest in exploring practical ways to help heal our planet. Our planet really does need our help, and now YOU can be part of the solution.

Join the EcoForce Global Family ... we have room for YOU. Here's to a better future for us all.

► For those of you who would like to learn what to do next for each Option, stay online and we will unpack this for you. If you need to go, thank you for your time.

3 OPTIONS UNPACKED

SLIDE 34: Option 1: Buy a Tree – become an EcoForce Customer

Step 1: Contact the Advocate who invited YOU to this Presentation and request their Personal Link

Step 2: This Link provides YOU with options; - simply click on the option to Buy a Tree

Step 3: Choose YOUR TREES from the Tree Club options; either select Pay in Full or the 12-month Payment Plan that works for YOU

You will be issued with a tax invoice (receipt) and introduced to your participating Farmer where your trees will be planted

Once your tree/s are planted, you will receive;

The GPS coordinates PLUS

6 monthly reports for the next two years

SLIDE 35: Option 2: Back-Up Income – become an EcoForce Advocate

Step 1: Contact the Advocate who invited YOU to this Presentation and request their Personal Link Select the option to Join My Team

Step 2: Complete Your Registration and choose Your Trees from the Tree Club options

You will be issued with YOUR unique Personal Link to share with others - for example; www.ecoforceglobal.com/itstartshere/?u=Corp

Step 3: Find 5 Advocates and help them find 5 Advocates each

SLIDE 36: AFFILIATE Recognition Level – example only

To reach AFFILIATE Level, assist your 5 Advocates to also find 5 Advocates each = \$200 + per month. Based on each Advocate in the 30 Tree Club on Payment Plan (example only)

SLIDE 37: EcoForce Global RECOGNITION LEVELS

AFFILIATE	\$200 PM	*PM – Per Month
INFLUENCER	\$500 PM/2CM	*CM – Consecutive Months
BRONZE	\$750 PM/3CM	
SILVER	\$1,000 PM/3CM	
GOLD	\$3,000 PM/3CM	
PLATINUM	\$5,000 PM/3CM	
MASTER	\$7,500 PM/3CM	
ECO INFLUENCER	\$10,000 PM/3CM	

SLIDE 38: Option 3: Career Income – become an EcoForce Ecopreneur

Step 1: Follow the same steps to become an EcoForce Advocate

Step 2: Work with your 5 Advocates to also become Affiliates and above

SLIDE 39: INFLUENCER Recognition Level - example only

By simply helping your 5 Advocates all achieve AFFILIATE Level, you will achieve the rank of INFLUENCER Level and receive \$500 + per month. Based on the Advocate Rewards Program (example only)

SLIDE 40: GOLD Recognition Level - example only

At SILVER Level, 2 of your AFFILIATES have reached INFLUENCER Level. Assist 2 to go BRONZE Level and 3 to go INFLUENCER Level, you will achieve the rank of GOLD and receive \$3,000 + per month. Based on the Advocate Rewards Program (example only)

SLIDE 41: ECO INFLUENCER Recognition Level – example only

At PLAINUM Level, you have assisted 3 to BRONZE Level and 2 to SILVER Level. Assist 3 to SILVER Level and 2 to GOLD Level, you will achieve the rank of ECO INFLUENCER = \$10,000 + per month Based on the Advocate Rewards Program (example only)

SLIDE 42: Disclosure Statement

None of these figures should not be considered as guarantees or projections of your actual income or profits.

Your success will depend on individual diligence, work, effort, sharing skill and market conditions. EcoForce Global does not guarantee any income or rank success.

A full income disclosure statement can be viewed online at ecoforceglobal.com/ids

SLIDE 43: Start TODAY - A common-sense business to make uncommon dollars

- Treat this as a business - OWN it
- Set aside time each week for YOUR business
- LEARN the Presentation – host a Tree Party
- Aim to find 5 ADVOCATES who want to do this with you asap - work together as a team
... and help heal our planet

Does anyone have any questions?
